IN 38th YEAR — EVERY WEEK SINCE 1905.

HAMLIN, JONES COUNTY, TEXAS, FRIDAY, JULY 2, 1943

NUMBER 35

## THIS WEEK

A LITTLE BIT ABOUT

*This*

AND A LITTLE BIT OF

**THAT**

—Gosh, there's no "remote control" this week.

—It seems so good to be in Hamlin where one can get all the sugar he wants—where he can get more than one cup of coffee—in Hamlin where the butter is not doled out in thin slices...yes, and best of all, where one can yell out, to even a lady neighbor clear across the street and know it is no impropriety.

—One thing recently we have learned there are lots of smart (?) fellows in the world, especially down in Texas. So smart that they display their ignorance every time they begin to grumble about this and that in these war days and blare out an expression "the damn government". Mix with about 3,000 fat-belly fellows and some who live in Texas and listen to them grumble and say things that burns up a patriotic man... "the damn government"... what a shame that such an expression should be heard any where, much less in public lobbies of big hotels.

—We often hear fellows griping about the billions the war is costing and the taxes we must pay. Let's suppose the un-heard-of sum of 500 billion dollars should be the cost of a victorious war, and let's suppose that every dollar you and I, and every kid and millionaire have spent for War Bonds, is never paid back, and we still retain our liberty, keep our American way of life, and 90% of all our boys come home alive after their victory, the cost is small—there's no room for grouching, except by a certain kind of moron. Maybe a few big bombs ought to be dropped on a few American cities, and then certain big-eyed fellows would see that victory and peace is cheap even at 500 billion (which is absurd to estimate).

—Did you read about the empty stock pens in Chicago? They are still empty. Who is striking now for higher money? One thing certain,

## Floyd Bevels Buys Carl Young Station

This week Floyd Bevels closed a deal for the Carl Young Service Station and is now announcing the business under the name Bevels Service Station.

Floyd is an old hand in this business and needs but little introduction. He is going about his new business with great energy.

Carl Young, we understand, will give all of his attention to trucking. He has had a line of trucks for some time.

Bevels announces his station is going to serve the full allowed time for service stations.

Miss Helen McCrary, teacher of Home Making in the Hamlin High school, left Saturday for Beaumont to spend the summer with her sister. Miss McCrary remained in Hamlin a month after the closing of school to complete some work in her department. She plans to resume her work in Hamlin schools in September.

a steer, a bushel of corn, or a ben of wheat will sooner or later deteriorate and the owners can't strike for higher prices indefinitely. If one can't get what he wants, don't sell, nobody will want to stand you up and shoot you for that... it is only the men with black faces in deep coal mines who "ought to be shot." Beef is as essential to war as coal. Who is the greatest criminal?

—Wonder if the time can ever come when Hamlin's business section will have trash-garbage can, neat and clean, with the words "Let's keep Hamlin Clean" painted on them? It would be a mighty good way to keep the FOURTH by cleaning up. One need not walk far to find something to "clean". It takes work, and lots of it to keep a clean town.

—In a democratic form of government the surest sign of complete freedom is the privilege of outspoken opposition to the government all the time. In all parts of the United States and the British Commonwealth of Nations, agitation against government is expected. What is it you do not like? Nobody kills you if you show it and speak it.

—Grumble your head off at the government... it is your privilege... jump with glee every time something comes up that makes the President's task harder and more complex, maybe that too will be more satisfying to you... it may help win a bad war too (nit).

## Naval Reserve Boys Going Into Active

About October, 1942, a number of Hamlin boys, then in colleges, volunteered for Naval Reserve and were allowed to continue their college work till the end of the terms.

As far as we can ascertain, the following names were in this list: Harold Fletcher, a student of Abilene Christian College, has been sent to State Teachers College, at Pittsburg, Kansas.

Milton Fletcher, also from A. C. C., was assigned to T. C. U., at Ft. Worth.

Elmer C. Feagan, Jr., a student of John Tarleton College, has been assigned to Tulane University, New Orleans, La.

Stanley Wilson, a recent graduate of North Texas State Teachers College, is awaiting assignment. Those graduating have an advanced standing, as we understand it.

Walter Cypert, son of Mr. and Mrs. R. P. Cypert, who enlisted in the Naval Reserves in October while a student in A. C. C., was called to report July 1 at T. C. U. for training. Walter only lacks one year's work on his college degree, and he hopes to complete this when Uncle Sam no longer needs him in his navy.

We understand that these college boys become "active, uniformed men in the Navy, with college training continued, under government rules, which may keep them pursuing a course assigned them for an indefinite time. Some of the boys plan to return to the colleges where they have been sent, following the war and take up where they will have to leave off. This is good planning, and should mean much to the young fellows in after life.

## Gravel Being Put On Rotan-Hamlin Road

Beginning at the east edge of town Monday, a gravel base is being laid rapidly on the Rotan-Hamlin highway, the work going east.

Thomas & Ratliff, contractors, maintain a large crew of experienced road men with the best of modern equipment, and the work is going fast. Already one can visualize a fine paved road from Rotan east, and it will soon be a reality.—Rotan Advance.

Up in 6116-41—Pl. N. E., Washington City is a Hamlin boy Eddie Freedman and his wife, proud parents of a son, Michael Allen, born June 20, and nearly eight pounds. Mrs. Eddie and that Hamlin boy husband ought to bring him "Down in Texas" and let us see him.

Miss Minnie Lee Elkins is making a present of the Hamlin Herald to her friend, Miss Mary Jo Sills, a student in N. T. S. T. C. in Denton. This is a gift Miss Sills will enjoy every week for the entire year.

Mrs. W. H. Harrison just returned from San Antonio after a two weeks visit with her two daughters, Miss Lucile Harrison and Mrs. Jack Ward. Mr. and Mrs. Ward are the proud parents of a fine baby girl, weighing 5 pounds 9 ounces. The baby's name is Sharon Kay.

## Tire Dealers Take Notice From WPRB

Irvin Sanders, chairman of the Jones County War Price and Rationing Board, calls tire dealers' attention to "forget competitive secrecy about tire inventories," and get together as soon as possible with the board, so the board can keep an up-to-the-minute inventory of the community's tire stocks.

"The very critical period of the tire shortage which we all have known was coming is now upon us," Mr. Sanders pointed out.

"A great many persons, including some tire dealers, have misunderstood the situation and have deluded themselves with false optimism regarding the prospects for our synthetic rubber production.

"The true fact is that the synthetic program is progressing splendidly, but we know that the general public will not reap the benefit of that program until some time next year.

"Tire dealers' inventories are fast disappearing. In fact, inventories of Grade One tires in many localities already are gone, or nearly so. We feel that July will see most of the popular size tires unobtainable, and it is up to the rationing board now to grant certificates only to those applicants whose needs are most critical and essential. It is unlikely that we can satisfy even this class completely."

"Most Americans are doing their part and won't take this warning as a cue to storm the rationing board and 'get theirs' while there are tires left," Mr. Sanders continued.

"It is up to patriotic citizens now—squarely up to them—to keep down speed, reduce driving to essentials and watch the care of their tires, guarding them for every mile they are worth.

"The next few months will tell the story, and the rubber situation is going to require the willing and uncomplaining help of the public and the tire dealers co-operating with the rationing board, so we can win this 'battle of rubber' ", says Sanders.

## Fourth of July Comes This Year on Sunday Town Closes Monday

This year the Fourth of July comes on Sunday.

Information gained by the Chamber of Commerce is that all of Hamlin's neighboring towns are going to close Monday, July 5—and that is what Hamlin merchants will do.

As usual the Postoffice and Banks close on Monday following a holiday on Sunday, hence all places of business with few exceptions will be closed in Hamlin next Monday.

## WAAC Lt. Williams

Visited In Hamlin

Lieut. Virginia F. Williams of the Army Recruiting and Induction Center of Abilene, was in Hamlin Thursday of last week, and while here gave the following information to the Herald. Lieut. Williams is equally proud of the fact that she is a grandmother, and that she is doing needed and valuable service as a WAAC. She says:

"I am 44 years old, so there is no excuse for others to stay out because of the so-called hard work for I am in better health than in the last 10 years.

"All the girls, especially with husbands in the army, should be in for then they are working together, making a home together has always been in style, so why not fight and work together for a safe place to build that home.

"Girls! Your husbands are going to travel, see things, learn more and do more than you who sit at home. You will be quite left out of conversations when he comes home. Get into the WAAC's and keep abreast of your husband.

"We need you all.  
"21 through 44. See Mrs. E. M. Wilson, at the Chamber of Commerce or come to Abilene Recruiting and Induction Center."

Mrs. Ramon Elkins and daughter, Ramona of Dallas, were here last week to visit her parents, Mr. and Mrs. W. B. Elkins in Plasterco.

Miss Lois Ellen Stell is at home from her school work at Allison in Wheeler County. She will spend the summer at home and resume her school in September.

## Now Where Do We Stand?

When Hitler was planning his world conquest, he estimated with a France torn by disunity and an England bickering over home matters and scattered over the whole world, he could have them well under his "heel" before anything happened to cause the United States to become angry enough to fight.

Hitler had plenty of ways to get information out of this United States, and he well knew that many American politicians would sell their own national honor to down their opposing party machine and secure power for themselves. He figured on disunity in this nation. He knew the love of power, the bickerings of labor, the bitterness against the "New Deal" in some sections and even in all circles, and so old Hitler got it down pretty fine, that by the time he was in the fight good and hard with the American boys, the American people would begin to feel the "pinch" and have to give up a few "pleasantries", conveniences and privileges, feel the pinch of taxation and then comes another year when a new president must be elected. So old Hitler gets it strong into his head that a lot of people in the United States would rather see the war drag on two or three years longer than see Franklin Roosevelt elected a FOURTH time as President. . . . maybe even invite defeat by Germany and Japan rather than see the party in Washington continue. . . . Hitler figures ahead, you know.

So here we Americans are, this the end of June, 1943, following one of the greatest victories over the enemy in North Africa. Here we are, listening to the daily, hourly good work of our noble boys on the land, on the sea and in the air. . . . German and Italian cities are being bombed to pieces so regularly, these days, till the news ceases to arouse the blood circulation of but a few Americans. . . . so there's nothing to excite the morbid minds of the politicians, the schemers for dollars, the pirates for power, and as Hitler figured, the old crazy Americans are scratching and clawing each other to pieces (all wanting unity, but for themselves—all wanting to keep down the cost of living at the expense of "the other fellow" — all wanting to get all the dollars out of their stuff for sale and for their labor but not wanting to take any cuts on themselves, etc.) Yes sir, Hitler figured that at the day of pinch the Americans would begin to cut each other's throats and leave him an easy field of victory over the valiant men of the armed forces.

Yes, fellow Americans, the past fifteen days of June have been almost depressing, a strange period of days, filled with report of air and sea victories; praise for our heroes of battles; rumors and signs of a gigantic invasion by our million of fighting boys in Europe; YET, and yet, one who reads carefully, listens intently, sums up and evaluates what has been going on in this America the last two weeks, must come to the conclusion that Hitler was not far wrong. It is quite clear that the American people have not learned how to wage war. They do not know how to do without, and sacrifice is an unknown quantity for most of them. They raise hell if they do not get what they want and when they want it. They raise hell if they can't buy all they want and sell it at a price high enough to keep those dollars rolling into their pockets. They raise hell if they have to pay more for some things than they formerly did. They raise hell if our leaders try to do something sound and worthwhile, when it hits "them" a bit. They want something done about this and that, but do not want anything done to interfere with "ME".

The atmosphere in Washington seems to be feeling the "pinch" and there are appointments, investigations, criticisms, insinuations, mounting bitterness and political sparring to head off anything that the president and his advisors try to do. . . . the country is fighting a good war but the home front is not holding up, if one judges from what is on the "air" and in the press, and on the lips of millions of people. NO, the home front is not holding up as it must in this war. Maybe we are taking it too easy, feeling that the boys will finish the job and we had better get a move on us in politics

or we will go behind. So the criticisms roll on, and it is from the forks of the creek to the very high seats in the Congress, and all along through factories and merchandising circles. Is that "The American Way?" Maybe so, but it certainly must sound good to Hitler.

A convention of State Governors met in Columbus, Ohio, and other would-be governors and statesmen, like the Lieutenant Governor of Texas, put out press reports that the popularity of the President is waning. Yes, when the governors of several states meet and go into a "huddle" and never a word or mention of the president, who bears his horrible burden, is heard, you can rest assured that they will put out the report that the "popularity of the President is waning." They want it to wane so they can get a little pie. Then comes along the President of the United States Chamber of Commerce and tells in sympathetic (?) terms how disunity and unrest is increasing in this nation, in such a manner as to increase what he is talking about. Then comes the Senate and the House, both tumbling over themselves to override a veto of a "useless" anti-strike law, that they know full well has no power to stop a strike, or make an extra tank or gun or mine a single ton of coal. But it sounds good (?) to the uninformed voter back home, and so next year they will tell how they voted to make men work. Yes, there was a lot of joy for the time being to see the President slapped. Only will time tell whether the President was right or the Congress. Get a copy of that anti-strike law that was made in spite of the President and see how little it can effect a labor controversy, how little good it has in it, and perhaps how much harm.

Yes, we do believe the American people are fussing too much, while our men are fighting so well. Let us assume that maybe the government is honestly trying to do something to help along in the war. Anything attempted will most certainly work a hardship on some one, but in the end it should do the whole population good. We are in WAR and not many things can go on normally. The kicker is generally wrong and he has a bug under his chip. We believe there is too much personal selfishness going on. We believe things must change or Hitler's assumptions will come true. We have NOT won this war yet, and even when we do, here's guessing political disunity will destroy victory. We have not heard any politics yet, compared with what is coming. When the time comes, and it is almost here, now, when certain parties had rather suffer and die than to see their competitor succeed. That was what happened in Spain, in France. The political competitor is more dangerous than the one in any enterprise of commerce.

Yes sir, there are strikes in this America besides coal miners. When farmers refuse to sell potatoes at a certain price and hold them in their fields, it is a kind of strike, the same is true of corn, of cattle, of everything held back for more dollars. But some people center all their anger on labor that is "held back" for more money or better working conditions. Let us all try to "take the beam out of our own eye, before we try to get the mote out of our brother's eye."

Mrs. R. E. Scales and son Bobby of Sweetwater, came Monday to visit her sister, Mrs. W. C. Russell. Mrs. Scales returned to her home Monday afternoon and Bobby remained for a longer visit.

## Farmers, Certified Canners Work for Peak 1943 Vegetable Packs

GUARANTEE FAIR PRICE

PREFERENCE ON LABOR

With American fighting men engaged in action in more and more combat zones, processed vegetables of all kinds are playing an increasingly large part in the food offensive of the United Nations.

To make sure that the armed services and the civilian population will get the greatest possible amount of processed vegetables, the United States Department of Agriculture has launched a production program designed to make maximum use of canning facilities. Through this program, farmers will get price supports by contracting their acreage with certified processors. All canners who indicate their willingness to pay growers at levels not under the price supports and operate to capacity are certified by USDA State War Boards.

County War Boards will aid farmers and canners in contracting the acreage necessary to capacity operation, and in securing labor and transportation for vegetables receiving price supports.

## Farmers Advised to Check Hog Cholera

### Six Common-Sense Precautions Listed

The swine raiser's old enemy, hog cholera, in on the march again—and according to all indications it is likely to be one of the greatest threats to our 1943 war goals in pork production.

Last season nearly 5,000 cholera outbreaks were reported to government authorities, and there were probably that many more which were never officially reported. These widespread outbreaks have undoubtedly left the virus of cholera in thousands of rural areas, ready to renew its attack when it comes in contact with susceptible swine. No one can say exactly what the annual cholera loss is at this time, but it is reliably estimated to be in the neighborhood of \$20,000,000. That much pork, in itself, would go a long way toward meeting our increased production goals this season, according to the American Foundation for Animal Health.

So, the first advice to farmers who are co-operating in the nation's stepped-up hog program is: "Watch out for cholera." Here are a few common-sense precautions which every farmer should take to protect his drove against this No. 1 swine killer:

1. Have the entire spring pig crop immunized against cholera by the local veterinarian, around weaning time. If this is done while pigs are small, it will take less serum and virus, conserving available supplies needed to take care of this year's larger pig crop.
2. Isolate newly purchased swine for at least two weeks before allowing them to mingle with the home drove.
3. Do not let trucks or wagons drive through your hog lots or pastures. They might carry the virus of cholera on their wheels.
4. Keep out of your neighbor's hog lot, and keep him out of yours.
5. Raise spring pigs on fresh, clean pasture, away from germ-contaminated old hog lots.
6. If any pigs show signs of sickness, have the trouble diagnosed immediately, so protective steps can be taken in time.

Experience shows that one of the principal problems in dealing with hog cholera is its similarity to various other swine diseases. Typical cholera symptoms include a high fever, partial or complete prostration, lack of appetite and listlessness.

Mrs. N. Phillips who has been a guest in the home of her daughter, Mrs. John Turner, left Tuesday for Slaton to visit her niece, Mrs. Edgar Childress and family. From there she will go on to Denver, Colorado, for a visit with another niece, Mrs. Thomason.

Miss Claudie Park of Grand Prairie, is a guest this week in the home of Mrs. M. Y. Wilson.

## About Soldiers--Sailors

Pfc. and Mrs. Wm. E. Eaton of Bryan, have been visiting their parents, Mr. and Mrs. L. A. Eaton and Mr. and Mrs. W. B. Elkins.

Sgt. William R. Wells who is stationed at Miami, Florida, is visiting his parents, Mr. and Mrs. G. E. Wells.

Pfc. Albert A. Galloway Jr. returned to his station at the Bryan, Texas Airfield on Tuesday after being at home 15 days with his parents, Mr. and Mrs. A. A. Galloway near McCauley.

Pfc. Joe Stewart is one soldier in North Africa who takes the liberty to tell several things most boys refrain from. Once before he told of the number of days he was in battle, and the 88's falling about him. In a later letter he said "I was out scouting one day and found a German that had been killed by our gun. . . his shoes, legs and arms were scattered all over the hill. . . I have seen about 50,000 German prisoners, but this was the only good one I ever saw." Joe that sounds hard but that's what war means to any boy. "I am resting now looking at captured guns and trucks."

First Lieutenant Carolyn Greenway (WAAC) spent a week at home with her parents, Mr. and Mrs. Roscoe Greenway. She had come from Fort Devens, Mass., in charge of a train load of New England WAACs. to Alpine Texas State Teachers College early last week. Being a Texas girl she sought this task (?) to get a chance to come home. She said it took 44 hours from Mass. to Texarkana and 27 hours from there to Alpine, Texas. This impressed the New England girls that Texas is about the biggest part of the United States. Lieut. Carolyn is fearful that some of those girls will get lost out here in the big wide-open sunshine of Texas.

You can now say Staff Sgt. Charles Prater. He is down in New Guinea and he says he gets the Herald and reads it till the pages are "slick."

The Herald received a beautiful announcement from Luke Field, Advanced Flying School at Phoenix, Arizona for the graduation of the class 43-F in which our Hamlin boy, Landon V. Davis Jr. received his wings. It is now Lieutenant Davis. The presentation was Tuesday, June 22. Mr. and Mrs. Landon Davis and daughter, Miss Phala and Miss Dorothea Wilemon went to Phoenix for the occasion. Lieut. Davis returned with them and while on his leave he, his sister Phala and Miss Wilemon visited in Dallas. Kingman, Arizona, Airfield is Lieut. Davis' next assignment.

It is now Sergeant A. L. Mullins at the Frederick, Okla., Army Air Field. Congratulations, Sarge!

### FIRST FROM IRAN

The Herald is going to all parts of the world, except that held by the enemy. Here's one from Iran (Persia) May 28, 1943:

Hi Sis and Family:  
Hoping this will find you all ok. Myself I'm doing fine so far. What is all the news at home on war? Do not know, but looks like a long way to go, but hoping it won't be so long, as this kind of life wasn't meant for boys like me, not this part of the world any way. All there is to do is work seven days a week and maybe go to one or two shows. No amusement whatever.

It is a shame the way the native people live. I know this is the poorest country on the globe. The women do most all the work. They carry every thing on their heads. Their clothing is very scarce that they wear. They put more clothes on their donkeys and cows than they wear themselves. They even milk sheep here.

My hobby is collecting native pictures of this country. So if and when I return I will have a lot to show and tell.

I have received several letters from friends. So glad to get them.

Answer real soon.

S-Sgt. John C. Gruben  
(This young American is a son of Mr. and Mrs. W. M. Gruben of Fisher County, near McCauley. They have five sons in the fight.

Ross Gruben, defense work in Hawaii.

Paul Gruben, defense work Waco, Texas.

Seaman 2-C Troy F. Gruben, San Diego, Calif.

And S-Sgt. John C. Gruben, Iran, (Persia).

## What to Write Soldiers

"The soldier wants the intimate details of life back home," says Chaplain (Major) Alvie L. McKnight of Cleveland, Miss., who has just returned to the U. S. after five months of duty on Guadalcanal. "That the girl two doors down has taken a war plant job, or that the couple across the street have had a baby may make your letter read like a personal column in a small town weekly newspaper, but that's what he wants. By all means, don't tell the soldier about your troubles. He has enough of his own. Domestic troubles affect the morale of a soldier at the front more than anything else. Something to live for and go back to is what keeps a soldier going. It is what gives a man fight. Home life is everything to the man at the front."

First Lieutenant Joe W. McCrary (Dentist) has been moved to Camp Kilmer, New Jersey. He is assigned to the 177th Ordnance Battalion. Mrs. McCrary and the two daughters, Jo Ann and Sue, went with the doctor, going through in their car.

It is now Pvt. William R. Johnson of Sheppard Field, son of Mr. and Mrs. W. F. (Truck) Johnson, pioneer Hamlin people. This is their youngest son, and they are proud of him in the service.

It is now Lieutenant Billy Monroe McGough, the flying, fighting Marine, a Leatherneck who can tell you what a boy has to go through to get his commission. He got his Wings Saturday, June 19, at the Corpus Christi Naval Air Station. His parents, Mr. and Mrs. Carl B. McGough, were present and Lt. Billy came home with them and remained till Tuesday of this week, when he left for Miami, Florida, for "getting more of what it takes." Congratulations, Lieut. McGough.

The Herald Editor was not at home last week when the office had a very distinguished "Soldier visitor." He was Staff Sgt. Dee Young who had just come up from Dallas where he had been in the Veterans Hospital. Gee Gosh! Dee, we are glad you are at home—and home to stay—you see folks, Dee Young has served with his very life on the "training front" and came near being killed, October 10, 1942 in Louisiana. Lay near death for a long time—was sent to McCloskey General Hospital, Temple—now he is at home discharged and is slowly improving. He has grown back broken bones from head to foot. He retains that calm voice and pleasing smile. Dee was training for Commando work and a jeep jumped on him in the dark. Congratulations Ex-soldier Young, take it easy; you have done your part.

Staff-Sgt. and Mrs. Parnell Anderson of Altus, Oklahoma, are here to visit her parents, Mr. and Mrs. Earl Crow. They will also visit with his parents, Mr. and Mrs. Fred Anderson in Stamford.

Pfc. Wilburn C. Carter came in from Ft. Benning, Ga., on Thursday of last week for a fifteen days furlough. He was met in Abilene by his wife who came in from California where she is employed in a defense plant. Carter is a mechanic on light tanks. He has been six months in the service.

I'm getting kinda hard to keep track of! They've been moving me far and fast since I left Atlantic City. Yes, you're right—they've done it again, and I'm now in another place with a new APO and Sqdn. No. so I thought I'd better let you know. Perhaps I'll receive those anxiously awaited copies of the Herald faster. I can't tell you the name of this place, or where it is, or what it is like! All I can say is—it's rough, and a long way from Texas. The biggest amusement we have is baseball when we're doing our "after hours" which are few. Also, I have to take on the whole "dam-Yankee" army alone right after chow every evening! So far I've done about as well as our boys did at Gettysburg and sometimes I do even better. Seriously though, the dam-Yanks are O. K. My best friend is from Philadelphia. He's a pretty swell guy. Tell all my friends hello for me, and keep the presses rolling! Respectfully,

### Mrs. Ollie Southerland and Mr. Orville Gilbert Take Marriage Vows

The marriage of Mrs. Ollie R. Southerland of Dallas and Orville C. Gilbert was solemnized in the home of Mr. and Mrs. John Owen Lewis Saturday morning at ten thirty o'clock before an improvised altar of ferns, pink gladioli, snapdragons and baskets of peonies. Multicolored spring flowers were used profusely throughout the receiving rooms. The Rev. H. E. East, pastor of the First Baptist Church of Hamlin, read the ceremony after which the bridal party was invited into the dining room where the wedding breakfast was served. The table was laid in white and a tiered wedding cake topped with a miniature bride and groom was in the center. Surrounding the cake was a wreath of pink flowers and fern. Mrs. C. C. Prater presided at the punch bowl.

The bride wore a navy sheer model and carried a lace handkerchief for "something new" and to carry out the "something old and something borrowed" she wore a beautiful antique bracelet belonging to her daughter, Mrs. J. R. Tedford of Dallas. Her corsage was orchids and stephanotis. Mrs. Gilbert is the daughter of Mrs. Ella McMillan of this city.

Mr. Gilbert has lived in Hamlin for the past year and a half and is superintendent of The Texas Cement Plaster Company.

Mr. and Mrs. Gilbert left immediately on a short wedding trip after which they will reside in Hamlin.

Guests for the wedding included the bride's mother and sister, Mrs. Ella McMillan and Mrs. Florence Morgan, Mrs. D. D. Harden, Mr. and Mrs. C. C. Prater and Charlotte and John Lewis IV, children of the host and hostess.

### Garden Club

The Hamlin Garden club will meet Friday, July 9th at 6 o'clock P. M. This meeting will be a garden party at the home of Mrs. Fred Carpenter. Each member is urged to attend and invite a guest. The program will be in charge of Mrs. Dick Low, Mrs. J. P. Morgan and Mrs. J. W. Ezell, with Mrs. Carpenter assisting.

### LIEUTENANT TURNER MARRIED OKLAHOMA GIRL

Mr. and Mrs. John C. Turner accompanied by Mr. and Mrs. Grogan Turner, went to Walters, Oklahoma, Sunday to attend the wedding of their son, Lieutenant J. C. Turner to Miss Margaret Williams.

The wedding took place Sunday afternoon at 2:00 o'clock at the home of the bride's parents in Walters, Okla.

Lieut. and Mrs. Turner are now on a wedding trip to points in New Mexico.

### MT. ZION NEWS

By Bonnie Campbell

The Mt. Zion church has recently been redecorated inside. New pews are being installed and new hymnals have been bought.

Mrs. C. M. Seifres from Benjamin, Mr. and Mrs. James Branscum and daughters from Hamlin visited in the Barto Jameson home Sunday.

Mr. and Mrs. Barto Jameson spent Saturday afternoon with Mrs. Jameson's brother, Willie Branscum from Camp Howze, Texas.

Cpl. Welton R. Jameson, who is in the army air corps, has recently finished school and is now an instructor teaching the study of machine guns and gun turrets on airplanes.

Mrs. W. J. Campbell and daughters went to Abilene Friday and returned home Saturday.

W. O. Harrie R. Shilot and wife of Camp Barkeley visited in the W. J. Campbell home last Monday evening.

Mrs. John Dorris of Los Angeles, California, came in Tuesday night to visit her sister, Mrs. T. J. Nall. The two had not seen each other in thirty-seven years.

Mrs. John L. Corruthers is here to visit Mrs. John D. Ferguson and other friends before joining her husband who is in training in Cheyenne, Wyoming.

Mrs. Phil Sparkman has returned from Austin where she had spent 3 months with her husband, St. Sgt. Sparkman who has been assigned to over seas duty.

### Cites Texas Share

Texas during the summer of 1943 will become the largest single factor in the nation's synthetic rubber program, with plants with an aggregate production capacity of 255,000 tons coming into being. James J. Newman, vice-president of the B. F. Goodrich company, pointed out that this is more than a third of the total "GR-S" scheduled under the national program. Newman has been with the pioneer Akron concern since 1931, and has been a vice-president since 1933.

What Does It Mean to You—

# The Constitution of the United States?

"We, the people of the United States..."

One hundred fifty-six years ago, these simple words began America's warranty of freedom.

Today we are deep in war—so that this warranty may endure. Should we win—and win we must—whom will it profit?

Are you a West Texas farmer, and do you love your land? Are you a worker, and do you cherish your hard-bought home? It will profit you that no man, without due process, can wrest your home, your field, your plow from you.

Do you worship God in a church, or in a synagogue, or in the secret places of your heart? It will profit you that no heathen hand can desecrate your altars.

Do you impart the truth to the printed page—or do you seek it there? It will profit you that the presses will not be shattered in the night.

Do you talk with your neighbors on

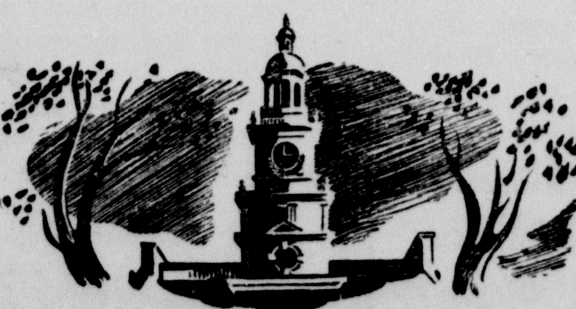

the street corner—or meet on the steps of the City Hall? It will profit you that no bludgeon can drive you into secret meetings.

Our Constitution assures us these things. And these we fight for.

In many ways we fight. Some in small, silent ways—when sons have gone. Some in large, heroic ways—in the roaring of wings, the firing of guns, the sailing of ships. Farmers fight in their fields; ministers from the pulpit's height. Others are making the weapons of war... and some are supplying the power with which to run the machines.

We are proud to be among the men and women of industry, fighting, too.

And we join with the freedom-loving people of West Texas in asking that Washington's bureaucrats forego their political activities for the duration and concentrate on the fight... and that they cease their endeavors to permanently change our Constitution—a threat to the freedom for which we are fighting.

O-O-O

COMMENT No. 1. We are informed by men who know, that there are fifteen million more cattle now on the ranges than ever before, and still people are unable to get beef. We are told that if only one-half of the surplus cattle were slaughtered that there would be beef enough to feed 200 million people for one year. The folks back home are not aching

about rationing of anything that is necessary, and speaking of "roll backs", it might be a wise idea to roll back home a few of those guys in Washington who sit at roller top desks trying to further figure out ways and means to confuse the people. Dr. Goebels may have had some thing when he said that the German government would not worry about America getting into the war and if she did there would be such a state of confusion within America that they would fight against themselves. Let's don't be silly, and we refer to the would-be wise guys in Washington.

NOTICE FARMERS: There is a possibility that war prisoners for farm labor may be obtained for this area if enough work days are available. These persons can not be worked in groups of less than 15, under guards furnished by the army. Farmers using this labor furnish transportation, from prison camp to fields and return, and pay to the army approximately \$1.50 per day per prisoner. The army feeds the prisoners. Labor must be within a radius of about 30 miles from local camp. All farmers in this vicinity who will need this kind of labor, please contact this scribe who is president of McCaulley Victory Council and I shall be glad to assist in any way possible and as soon as necessary information is obtained, steps will be taken to see if this prison labor is available. Please state how many employees you will need and for how long and what kind of work that you have for them.

Rep. Clare Booth Luce stirred the House to debate the other day when she declared that President Roosevelt was once the world's outstanding isolationist. We have a notion that Mrs. Clare Booth Luce is wanting publicity. Quite a few of the kind sun bathing on the banks of the Potomac when they should be co-operating in the war effort.

The reasons for less local news this week and more Pot-Shots is: we happened to be in Fort Worth and Dallas most all the week and don't know what's going on in the old home town.

The weather is somewhat warmer in Dallas to our notion, than in McCaulley and the folks are more numerous, but we find that the folks in the city have about the same things in common with West Texans, but there is one good thing about being from Fisher County when it comes to traffic rules, the cops take it for granted that we don't know any better.

We just can't keep it any longer: One day Levi McCollum rushed into a Dallas barber on Sunday morning for a shave, and was taxed a dollar for same. He is still recovering.

COMMENT No. 2. After this war, there should be a great change in the immigration laws of the United States. Every Jap, whether he was born here or elsewhere should be deported. They are just not our kind of people and never will be. There will be enough work for all Americans if we deport the undesirables. The white race in America does not claim to be a super race, yet the Pilgrim fathers would likely turn over in their graves at the thoughts of our people permitting Japs to live, work and undermining everything that we hold dear. Yes, this country is not big enough for the white race and the equi-eyed Japs and the men who represent the people in Washington should have backbone enough to pass laws that would forever prohibit another Jap to set foot on American soil. Mark this down: Just as soon as this war is over, you are going to see the appeasers in Washington get busy. You will even hear how bad that the Pap race has been mistreated and some will want the people to forgive and forget the sneak attack on Pearl Harbor. Before Admiral Perry visited Japan, they were isolated from the rest of the world. Well, we would have been a million times better off if the Japs were still isolated. Personally, we never expect to support any man for any office in the future who has one ounce of sympathy for the Jap race. That's a broad statement, but a fact, and there are millions of mothers and fathers of American boys who will say Amen. World trade will carry on without the assistance of a low class of sneaking Japs. If we can

HAMLIN, JONES COUNTY, TEXAS, FRIDAY, JULY 2, 1943

NUMBER 35

## THIS WEEK

A LITTLE BIT ABOUT

*This*  
AND A LITTLE BIT OF  
**THAT**

—Gosh, there's no "remote control" this week.

—It seems so good to be in Hamlin where one can get all the sugar he wants—where he can get more than one cup of coffee—in Hamlin where the butter is not doled out in thin slices....yes, and best of all, where one can yell out, to even a lady neighbor clear across the street and know it is no impropriety.

—One thing recently we have learned there are lots of smart (?) fellows in the world, especially down in Texas. So smart that they display their ignorance every time they begin to grumble about this and that in these war days and blare out an expression "the damn government". Mix with about 3,000 fat-belly fellows and some who live in Texas and listen to them grumble and say things that burns up a patriotic man...."the damn government"...what a shame that such an expression should be heard any where, much less in public lobbies of big hotels.

—We often hear fellows griping about the billions the war is costing and the taxes we must pay. Let's suppose the un-heard-of sum of 500 billion dollars should be the cost of a victorious war, and let's suppose that every dollar you and I, and every kid and millionaire have spent for War Bonds, is never paid back, and we still retain our liberty, keep our American way of life, and 90% of all our boys come home alive after their victory, the cost is small—there's no room for grouching, except by a certain kind of moron. Maybe a few big bombs ought to be dropped on a few American cities, and then certain big-eyed fellows would see that victory and peace is cheap even at 500 billion (which is absurd to estimate).

—Did you read about the empty stock pens in Chicago? They are still empty. Who is striking now for higher money? One thing certain,

This week Floyd Bevels closed a deal for the Carl Young Service Station and is now announcing the business under the name Bevels Service Station.

Floyd is an old hand in this business and needs but little introduction. He is going about his new business with great energy.

Carl Young, we understand, will give all of his attention to trucking. He has had a line of trucks for some time.

Bevels announces his station is going to serve the full allowed time for service stations.

Miss Helen McCrary, teacher of Home Making in the Hamlin High school, left Saturday for Beaumont to spend the summer with her sister. Miss McCrary remained in Hamlin a month after the closing of school to complete some work in her department. She plans to resume her work in Hamlin schools in September.

a steer, a bushel of corn, or a ben of wheat will sooner or later deteriorate and the owners can't strike for higher prices indefinitely. If one can't get what he wants, don't sell, nobody will want to stand you up and shoot you for that....it is only the men with black faces in deep coal mines who "ought to be shot." Beef is as essential to war as coal. Who is the greatest criminal?

—Wonder if the time can ever come when Hamlin's business section will have trash-garbage can, neat and clean, with the words "Let's keep Hamlin Clean" painted on them? It would be a mighty good way to keep the FOURTH by cleaning up. One need not walk far to find something to "clean". It takes work, and lots of it to keep a clean town.

—In a democratic form of government the surest sign of complete freedom is the privilege of outspoken opposition to the government all the time. In all parts of the United States and the British Commonwealth of Nations, agitation against government is expected. What is it you do not like? Nobody kills you if you show it and speak it.

—Grumble your head off at the government....it is your privilege... jump with glee every time something comes up that makes the President's task harder and more complex, maybe that too will be more satisfying to you....it may help win a bad war too (nit).

## Naval Reserve Boys Going Into Active

About October, 1942, a number of Hamlin boys, then in colleges, volunteered for Naval Reserve and were allowed to continue their college work till the end of the terms.

As far as we can ascertain, the following names were in this list: Harold Fletcher, a student of Abilene Christian College, has been sent to State Teachers College, at Pittsburg, Kansas.

Milton Fletcher, also from A. C. C., was assigned to T. C. U., at Ft. Worth.

Elmer C. Feagan, Jr., a student of John Tarleton College, has been assigned to Tulane University, New Orleans, La.

Stanley Wilson, a recent graduate of North Texas State Teachers College, is awaiting assignment. Those graduating have an advanced standing, as we understand it.

Walter Cybert, son of Mr. and Mrs. R. P. Cybert, who enlisted in the Naval Reserves in October while a student in A. C. C., was called to report July 1 at T. C. U. for training. Walter only lacks one year's work on his college degree, and he hopes to complete this when Uncle Sam no longer needs him in his navy.

We understand that these college boys become "active, uniformed men in the Navy, with college training continued, under government rules, which may keep them pursuing a course assigned them for an indefinite time. Some of the boys plan to return to the colleges where they have been sent, following the war and take up where they will have to leave off. This is good planning, and should mean much to the young fellows in after life.

## Gravel Being Put On Rotan-Hamlin Road

Beginning at the east edge of town Monday, a gravel base is being laid rapidly on the Rotan-Hamlin highway, the work going east.

Thomas & Radliff, contractors, maintain a large crew of experienced road men with the best of modern equipment, and the work is going fast. Already one can visualize a fine paved road from Rotan east, and it will soon be a reality.—Rotan Advance.

Up in 6116—41—Pl. N. E., Washington City is a Hamlin boy Eddie Freedman and his wife, proud parents of a son, Michael Allen, born June 20, and nearly eight pounds. Mrs. Eddie and that Hamlin boy husband ought to bring him "Down in Texas" and let us see him.

Miss Minnie Lee Elkins is making a present of the Hamlin Herald to her friend, Miss Mary Jo Sills, a student in N. T. S. T. C. in Denton. This is a gift Miss Sills will enjoy every week for the entire year.

Mrs. W. H. Harrison just returned from San Antonio after a two weeks visit with her two daughters, Miss Lucile Harrison and Mrs. Jack Ward. Mr. and Mrs. Ward are the proud parents of a fine baby girl, weighing 5 pounds 9 ounces. The baby's name is Sharon Kay.

## Tire Dealers Take Notice From WPRB

Irvin Sanders, chairman of the Jones County War Price and Rationing Board, calls tire dealers' attention to "forget competitive secrecy about tire inventories," and get together as soon as possible with the board, so the board can keep an up-to-the-minute inventory of the community's tire stocks.

"The very critical period of the tire shortage which we all have known was coming is now upon us," Mr. Sanders pointed out.

"A great many persons, including some tire dealers, have misunderstood the situation and have deluded themselves with false optimism regarding the prospects for our synthetic rubber production.

"The true fact is that the synthetic program is progressing splendidly, but we know that the general public will not reap the benefit of that program until some time next year.

"Tire dealers' inventories are fast disappearing. In fact, inventories of Grade One tires in many localities already are gone, or nearly so. We feel that July will see most of the popular size tires unobtainable, and it is up to the rationing board now to grant certificates only to those applicants whose needs are most critical and essential. It is unlikely that we can satisfy even this class completely."

"Most Americans are doing their part and won't take this warning as a cue to storm the rationing board and 'get theirs' while there are tires left," Mr. Sanders continued.

"It is up to patriotic citizens now—squarely up to them—to keep down speed, reduce driving to essentials and watch the care of their tires, guarding them for every mile they are worth.

"The next few months will tell the story, and the rubber situation is going to require the willing and uncomplaining help of the public and the tire dealers co-operating with the rationing board, so we can win this 'battle of rubber'," says Sanders.

## Fourth of July Comes This Year on Sunday Town Closes Monday

This year the Fourth of July comes on Sunday.

Information gained by the Chamber of Commerce is that all of Hamlin's neighboring towns are going to close Monday, July 5—and that is what Hamlin merchants will do.

As usual the Postoffice and Banks close on Monday following a holiday on Sunday, hence all places of business with few exceptions will be closed in Hamlin next Monday.

## WAAC Lt. Williams

Visited In Hamlin

Lieut. Virginia F. Williams of the Army Recruiting and Induction Center of Abilene, was in Hamlin Thursday of last week, and while here gave the following information to the Herald. Lieut. Williams is equally proud of the fact that she is a grandmother, and that she is doing needed and valuable service as a WAAC. She says:

"I am 44 years old, so there is no excuse for others to stay out because of the so-called hard work for I am in better health than in the last 10 years.

"All the girls, especially with husbands in the army, should be in for then they are working together, making a home together has always been in style, so why not fight and work together for a safe place to build that home.

"Girls! Your husbands are going to travel, see things, learn more and do more than you who sit at home. You will be quite left out of conversations when he comes home. Get in to the WAAC's and keep abreast of your husband.

"We need you all."  
"21 through 44. See Mrs. E. M. Wilson, at the Chamber of Commerce or come to Abilene Recruiting and Induction Center."

Mrs. Ramon Elkins and daughter, Ramona of Dallas, were here last week to visit her parents, Mr. and Mrs. W. B. Elkins in Plasterco.

Miss Lois Ellen Stell is at home from her school work at Allison in Wheeler County. She will spend the summer at home and resume her school in September.

## Now Where Do We Stand?

When Hitler was planning his world conquest, he estimated with a France torn by disunity and an England bickering over home matters and scattered over the whole world, he could have them well under his "heel" before anything happened to cause the United States to become angry enough to fight.

Hitler had plenty of ways to get information out of this United States, and he well knew that many American politicians would sell their own national honor to down their opposing party machine and secure power for themselves. He figured on disunity in this nation. He knew the love of power, the bickerings of labor, the bitterness against the "New Deal" in some sections, and even in all circles, and so old Hitler got it down pretty fine, that by the time he was in the fight good and hard with the American boys, the American people would begin to feel the "pinch" and have to give up a few "pleasantries", conveniences and privileges, feel the pinch of taxation and then comes another year when a new president must be elected. So old Hitler gets it strong into his head that a lot of people in the United States would rather see the war drag on two or three years longer than see Franklin Roosevelt elected a FOURTH time as President. ... maybe even invite defeat by Germany and Japan rather than see the party in Washington continue. .... Hitler figures ahead, you know.

So here we Americans are, this the end of June, 1943, following one of the greatest victories over the enemy in North Africa. Here we are, listening to the daily, hourly good work of our noble boys on the land, on the sea and in the air. ... German and Italian cities are being bombed to pieces so regularly, these days, till the news ceases to arouse the blood circulation of but a few Americans. ... so there's nothing to excite the morbid minds of the politicians, the schemers for dollars, the pirates for power, and as Hitler figured, the old crazy Americans are scratching and clawing each other to pieces (all wanting unity, but for themselves—all wanting to keep down the cost of living at the expense of "the other fellow" — all wanting to get all the dollars out of their stuff for sale and for their labor but not wanting to take any cuts on themselves, etc.) Yes sir, Hitler figured that at the day of pinch the Americans would begin to cut each other's throats and leave him an easy field of victory over the valiant men of the armed forces.

Yes, fellow Americans, the past fifteen days of June have been almost depressing, a strange period of days, filled with report of air and sea victories; praise for our heroes of battles; rumors and signs of a gigantic invasion by our million of fighting boys in Europe; YET, and yet, one who reads carefully, listens intently, sums up and evaluates what has been going on in this America the last two weeks, must come to the conclusion that Hitler was not far wrong. It is quite clear that the American people have not learned how to wage war. They do not know how to do without, and sacrifice is an unknown quantity for most of them. They raise hell if they do not get what they want and when they want it. They raise hell if they can't buy all they want and sell it at a price high enough to keep those dollars rolling into their pockets. They raise hell if they have to pay more for some things than they formerly did. They raise hell if our leaders try to do something sound and worthwhile, when it hits "them" a bit. They want something done about this and that, but do not want anything done to interfere with "ME".

The atmosphere in Washington seems to be feeling the "pinch" and there are appointments, investigations, criticisms, insinuations, spouting bitterness and political sparring to head off anything that the president and his advisors try to do. ... the country is fighting a good war but the home front is not holding up, if one judges from what is on the "air" and in the press, and on the lips of millions of people. NO, the home front is not holding up as it must in this war. Maybe we are taking it too easy, feeling that the boys will get the job and we had better get a move on us in politics

or we will go behind. So the criticisms roll on, and it is from the forks of the creek to the very high seats in the Congress, and all along through factories and merchandising circles. Is that "The American Way"? Maybe so, but it certainly must sound good to Hitler.

A convention of State Governors met in Columbus, Ohio, and other would-be governors and statesmen, like the Lieutenant Governor of Texas, put out press reports that the popularity of the President is waning. Yes, when the governors of several states meet and go into a "huddle" and never a word or mention of the president, who bears his horrible burden, is heard, you can rest assured that they will put out the report that the "popularity of the President is waning." They want it to wane so they can get a little pie. Then comes along the President of the United States Chamber of Commerce and tells in sympathetic (?) terms how disunity and unrest is increasing in this nation, in such a manner as to increase what he is talking about. Then comes the Senate and the House, both tumbling over themselves to override a veto of a "useless" anti-strike law, that they know full well has no power to stop a strike, or make an extra tank or gun or mine a single ton of coal. But it sounds good (?) to the unformed voter back home, and so next year they will tell how they voted to let men work. Yes, there was a lot of joy for the time being to see the President slapped. Only will time tell whether not the President was right or the Congress. Get a copy of that anti-strike law that was made in spite of the President and see how little it can effect a labor controversy, how little good it has in it, and perhaps how much harm.

Yes, we do believe the American people are fussing too much, while our men are fighting so well. Let us assume that maybe the government is honestly trying to do something to help along in the war. Anything attempted will most certainly work a hardship on some one, but in the end it should do the whole population good. We are in WAR and not many things can go on normally. The kicker is generally wrong and he has a bug under his chip. We believe there is too much personal selfishness going on. We believe things must change or Hitler's assumptions will come true. We have NOT won this war yet, and even when we do, here's guessing political disunity will destroy victory. We have not heard any politics yet, compared with what is coming. When the time comes, and it is almost here, now, when certain parties had rather suffer and die than to see their competitor succeed. That was what happened in Spain, in France. The political competitor is more dangerous than the one in any enterprise of commerce.

Yes sir, there are strikes in this America besides coal miners. When farmers refuse to sell potatoes at a certain price and hold them in their fields, it is a kind of strike, the same is true of corn, of cattle, of everything held back for more dollars. But some people center all their anger on labor that is "held back" for more money or better working conditions. Let us all try to "take the beam out of our own eye, before we try to get the mote out of our brother's eye."

Mrs. R. E. Scales and son Bobby of Sweetwater, came Monday to visit her sister, Mrs. W. C. Russell. Mrs. Scales returned to her home Monday afternoon and Bobby remained for a longer visit.

## Farmers, Certified Cannery Work for Peak 1943 Vegetable Packs

GUARANTEE FAIR PRICE

PREFERENCE ON LABOR

With American fighting men engaged in action in more and more combat zones, processed vegetables of all kinds are playing an increasingly large part in the food offensive of the United Nations.

To make sure that the armed services and the civilian population will get the greatest possible amount of processed vegetables, the United States Department of Agriculture has launched a production program designed to make maximum use of canning facilities. Through this program, farmers will get price supports by contracting their acreage with certified processors. All canners who indicate their willingness to pay growers at levels not under the price supports and operate to capacity are certified by USDA State War Boards.

County War Boards will aid farmers and cannery in contracting the acreage necessary to capacity operation, and in securing labor and transportation for vegetables receiving price supports.

## Farmers Advised to Check Hog Cholera

### Six Common-Sense Precautions Listed

The swine raiser's old enemy, hog cholera, in on the march again—and according to all indications it is likely to be one of the greatest threats to our 1943 war goals in pork production.

Last season nearly 5,000 cholera outbreaks were reported to government authorities, and there were probably that many more which were never officially reported. These widespread outbreaks have undoubtedly left the rural of cholera in thousands of virus areas, ready to renew its attack when it comes in contact with susceptible swine. No one can say exactly what the annual cholera loss is at this time, but it is reliably estimated to be in the neighborhood of \$20,000,000. That much pork, in itself, would go a long way toward meeting our increased production goals this season, according to the American Foundation for Animal Health.

So, the first advice to farmers who are co-operating in the nation's stepped-up hog program is: "Watch out for cholera." Here are a few common-sense precautions which every farmer should take to protect his drove against this No. 1 swine killer:

1. Have the entire spring pig crop immunized against cholera by the local veterinarian, around weaning time. If this is done while pigs are small, it will take less serum and virus, conserving available supplies needed to take care of this year's larger pig crop.
2. Isolate newly purchased swine for at least two weeks before allowing them to mingle with the home drove.
3. Do not let trucks or wagons drive through your hog lots or pastures. They might carry the virus of cholera on their wheels.
4. Keep out of your neighbor's hog lot, and keep him out of yours.
5. Raise spring pigs on fresh, clean pasture, away from germ-contaminated old hog lots.
6. If any pigs show signs of sickness, have the trouble diagnosed immediately, so protective steps can be taken in time.

Experience shows that one of the principal problems in dealing with hog cholera is its similarity to various other swine diseases. Typical cholera symptoms include a high fever, partial or complete prostration, lack of appetite and listlessness.

Mrs. N. Phillips who has been a guest in the home of her daughter, Mrs. John Turner, left Tuesday for Slaton to visit her niece, Mrs. Edgar Childress and family. From there she will go on to Denver, Colorado, for a visit with another niece, Mrs. Thomason.

## About Soldiers--Sailors

Pfc. and Mrs. Wm. E. Eaton of Bryan, have been visiting their parents, Mr. and Mrs. L. A. Eaton and Mr. and Mrs. W. B. Elkins.

Sgt. William R. Wells who is stationed at Miami, Florida, is visiting his parents, Mr. and Mrs. G. E. Wells.

Pfc. Albert A. Galloway Jr. returned to his station at the Bryan, Texas Airfield on Tuesday after being at home 15 days with his parents, Mr. and Mrs. A. A. Galloway near McCaulley.

Pfc. Joe Stewart is one soldier in North Africa who takes the liberty to tell several things most boys refrain from. Once before he told of the number of days he was in battle, and the 88's falling about him. In a later letter he said "I was out scouting one day and found a German that had been killed by our gun...his shoes, legs and arms were scattered all over the hill... I have seen about 50,000 German prisoners, but this was the only good one I ever saw." Joe that sounds hard but that's what war means to any boy. "I am resting now looking at captured guns and trucks."

First Lieutenant Carolyn Greenway (WAAC) spent a week at home with her parents, Mr. and Mrs. Roscoe Greenway. She had come from Fort Devens, Mass., in charge of a train load of New England WAACs to Alpine Texas State Teachers College early last week. Being a Texas girl she sought this task (?) to get a chance to come home. She said it took 44 hours from Mass. to Texas and 27 hours from there to Alpine, Texas. This impressed the New England girls that Texas is about the biggest part of the United States. Lieut. Carolyn is fearful that some of those girls will get lost out here in the big wide-open sunshine of Texas.

You can now say Staff Sgt. Charles Prater. He is down in New Guinea and he says he gets the Herald and reads it till the pages are "slick."

The Herald received a beautiful announcement from Luke Field, Advanced Flying School at Phoenix, Arizona for the graduation of the class 43-F in which our Hamlin boy, Landon V. Davis Jr. received his wings. It is now Lieutenant Davis. The presentation was Tuesday, June 22. Mr. and Mrs. Landon Davis and daughter, Miss Phala and Miss Wilmon visited in Dallas, Kingman, Arizona, Airfield is Lieut. Davis' next assignment.

It is now Sergeant A. L. Mullins at the Frederic, Okla., Army Air Field. Congratulations, Sarge!

**FIRST FROM IRAN**  
The Herald is going to all parts of the world, except that held by the enemy. Here's one from Iran (Persia) May 28, 1943:

Hi Sis and Family:  
Hoping this will find you all ok. Myself I'm doing fine so far. What is all the news at home on war? Do not know, but looks like a long way to go, but hoping it won't be so long, as this kind of life wasn't meant for boys like me, not this part of the world any way. All there is to do is work seven days a week and maybe go to one or two shows. No amusement whatever.

It is a shame the way the native people live. I know this is the poorest country on the globe. The women do most all the work. They carry everything on their heads. Their clothing is very scarce that they wear. They put more clothes on their donkeys and cows than they wear themselves. They even milk sheep here.

My hobby is collecting native pictures of this country. So if and when I return I will have a lot to show and tell.

I have received several letters from friends. So glad to get them.

Answer real soon.  
S-Sgt. John C. Gruben  
(This young American is a son of Mr. and Mrs. W. M. Gruben of Fisher County, near McCaulley. They have five sons in the fight.)

Ross Gruben, defense work in Hawaii.

Paul Gruben, defense work Waco, Texas.

Seaman 2-C Troy F. Gruben, San Diego, Calif.

And S-Sgt. John C. Gruben, Iran, (Persia).

## What to Write Soldiers

"The soldier wants the intimate details of life back home," says Chaplain (Major) Alvie L. McKnight of Cleveland, Miss., who has just returned to the U. S. after five months of duty on Guadalcanal. "That the girl two doors down has taken a war plant job, or that the couple across the street have had a baby may make your letter read like a personal column in a small town weekly newspaper, but that's what he wants. By all means, don't tell the soldier about your troubles. He has enough of his own. Domestic troubles affect the morale of a soldier at the front more than anything else. Something to live for and go back to is what keeps a soldier going. It is what gives a man fight, Home life is everything to the man at the front."

First Lieutenant Joe W. McCrary (Dentist) has been moved to Camp Kilmer, New Jersey. He is assigned to the 177th Ordnance Battalion. Mrs. McCrary and the two daughters, Jo Ann and Sue, went with the doctor, going through in their car.

It is now Pvt. William R. Johnson of Sheppard Field, son of Mr. and Mrs. W. F. (Truck) Johnson, pioneer Hamlin people. This is their youngest son, and they are proud of him in the service.

It is now Lieutenant Billy Monroe McGough, the flying, fighting Marine, a Leatherneck who can tell you what a boy has to go through to get his commission. He got his Wings Saturday, June 19, at the Corpus Christi Naval Air Station. His parents, Mr. and Mrs. Carl B. McGough, were present and Lt. Billy came home with them and remained till Tuesday of this week, when he left for Miami, Florida, for "getting more of what it takes." Congratulations, Lieut. Bill.

The Herald Editor was not at home last week when the office had a very distinguished "Soldier visitor." He was Staff Sgt. Dee Young who had just come up from Dallas where he had been in the Veterans Hospital. Gee Gosh! Dee, we are glad you are at home—and home to stay—you see folks, Dee Young has served with his very life on the "training front" and came near being killed, October 10, 1942 in Louisiana. Lay near death for a long time—was sent to McCloskey General Hospital, Temple—now he is at home discharged and is slowly improving. He has grown back broken bones from head to foot. He retains that calm voice and pleasing smile. Dee was training for Commando work and a jeep jumped on him in the dark. Congratulations Ex-soldier Young, take it easy; you have done your part.

Staff of Sgt. and Mrs. Parnell Anderson of Altus, Oklahoma, are here to visit her parents, Mr. and Mrs. Earl Crow. They will also visit with her parents, Mr. and Mrs. Fred Anderson in Stamford.

Pfc. Wilburn C. Carter came in from Ft. Benning, Ga., on Thursday of last week for a fifteen days furlough. He was met in Abilene by his wife who came in from California where she is employed in a defense plant. Carter is a mechanic on light tanks. He has been six months in the service.

I'm getting kinda hard to keep track of! They've been moving me far and fast since I left Atlantic City. Yes, you're right—they've done it again, and I'm now in another place with a new APO and Sqdn. No. so I thought I'd better let you know. Perhaps I'll receive those anxiously awaited copies of the Herald faster. I can't tell you the name of this place, or where it is, or what it is like! All I can say is—it's rough, and a long way from Texas. The biggest amusement we have is baseball when we're doing our "after hours" which are few. Also, I have to take on the whole "dam-Yankee" army alone right after snow every evening! So far I've done about as well as our boys did at Gettysburg and sometimes I do even better. Seriously though, the dam-Yankers are O. K. My best friend is from Philadelphia. He's a pretty swell guy. Tell all my friends a hello for me, and keep the presses rolling! Respectfully,

### Mrs. Ollie Southerland and Mr. Orville Gilbert Take Marriage Vows

The marriage of Mrs. Ollie R. Southerland of Dallas and Orville C. Gilbert was solemnized in the home of Mr. and Mrs. John Owen Lewis Saturday morning at ten thirty o'clock before an improvised altar of ferns, pink gladioli, snapdragons and baskets of peonies. Multicolored spring flowers were used profusely throughout the receiving rooms. The Rev. H. E. East, pastor of the First Baptist Church of Hamlin, read the ceremony after which the bridal party was invited into the dining room where the wedding breakfast was served. The table was laid in white and a tiered wedding cake topped with a miniature bride and groom was in the center. Surrounding the cake was a wreath of pink flowers and fern. Mrs. C. C. Prater presided at the punch bowl.

The bride wore a navy sheer model and carried a lace handkerchief for "something new" and to carry out the "something old and something borrowed" she wore a beautiful antique bracelet belonging to her daughter, Mrs. J. R. Tedford of Dallas. Her corsage was orchids and stephanotis. Mrs. Gilbert is the daughter of Mrs. Ella McMillan of this city.

Mr. Gilbert has lived in Hamlin for the past year and a half and is superintendent of The Texas Cement Plaster Company.

Mr. and Mrs. Gilbert left immediately on a short wedding trip after which they will reside in Hamlin.

Guests for the wedding included the bride's mother and sister, Mrs. Ella McMillan and Mrs. Florence Morgan, Mrs. D. D. Harden, Mr. and Mrs. C. C. Prater and Charlotte and John Lewis IV, children of the host and hostess.

### Garden Club

The Hamlin Garden club will meet Friday, July 9th at 6 o'clock P. M. This meeting will be a garden party at the home of Mrs. Fred Carpenter. Each member is urged to attend and invite a guest. The program will be in charge of Mrs. Dick Low, Mrs. J. P. Morgan and Mrs. J. W. Ezell, with Mrs. Carpenter assisting.

### Cites Texas Share

Texas during the summer of 1943 will become the largest single factor in the nation's synthetic rubber program, with plants with an aggregate production capacity of 255,000 tons coming into being. James J. Newman, vice-president of the B. F. Goodrich company, pointed out that this is more than a third of the total "GR-S" scheduled under the national program. Newman has been with the pioneer Akron concern since 1931, and has been a vice-president since 1933.

What Does It Mean to You—

# The Constitution of the United States?

"We, the people of the United States..."

One hundred fifty-six years ago, these simple words began America's warranty of freedom.

Today we are deep in war—so that this warranty may endure. Should we win—and win we must—whom will it profit?

Are you a West Texas farmer, and do you love your land? Are you a worker, and do you cherish your hard-bought home? It will profit you that no man, without due process, can wrest your home, your field, your plow from you.

Do you worship God in a church, or in a synagogue, or in the secret places of your heart? It will profit you that no heathen hand can desecrate your altars.

Do you impart the truth to the printed page—or do you seek it there? It will profit you that the presses will not be shattered in the night.

Do you talk with your neighbors on

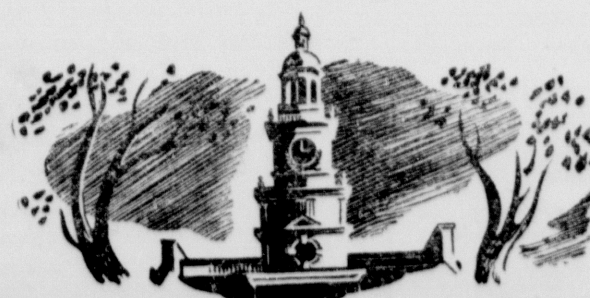

the street corner—or meet on the steps of the City Hall? It will profit you that no bludgeon can drive you into secret meetings.

Our Constitution assures us these things. And these we fight for.

In many ways we fight. Some in small, silent ways—when sons have gone. Some in large, heroic ways—in the roaring of wings, the firing of guns, the sailing of ships. Farmers fight in their fields; ministers from the pulpit's height. Others are making the weapons of war... and some are supplying the power with which to run the machines.

We are proud to be among the men and women of industry, fighting, too.

And we join with the freedom-loving people of West Texas in asking that Washington's bureaucrats forego their political activities for the duration and concentrate on the fight... and that they cease their endeavors to permanently change our Constitution—a threat to the freedom for which we are fighting.

## POT SHOTS FROM M'CAULLEY

BY GEO. DARDEN

Visiting Privates Hughie Parker and Louis Earl Madden at their training base in Wichita Falls last Sunday were: Mr. and Mrs. W. J. Madden, Mrs. Vera Jayroe, Mrs. Louis Earl Madden and Mrs. Hughie Parker.

Visiting her parents, Mr. and Mrs. Hub Parker last week, was Mrs. Amuel Rector and daughter of Wichita Falls.

Miss Helen Smith of Fort Worth visited her parents and other relatives in this vicinity last week end.

Mr. and Mrs. Ben Short visited last week end in the home of his parents in Gorman.

Bess Darden is in Cisco for a week visiting her uncle and aunt, Mr. and Mrs. W. L. Curry.

Leaving Monday for Fort Worth for a two weeks' visit with relatives were: Mr. and Mrs. C. P. Yates, Betty Blanche Miers, Margaret Darden and Mrs. Joe Miers.

J. B. Pope, general manager of the Texas Cotton Growers Gin Co. of Dallas was in McCaulley last week end looking after gin interests here.

COMMENT No. 1. We are informed by men who know, that there are fifteen million more cattle now on the ranges than ever before, and still people are unable to get beef. We are told that if only one-half of the surplus cattle were slaughtered that there would be beef enough to feed 200 million people for one year. The folks back home are not aching

about rationing of anything that is necessary, and speaking of "roll backs", it might be a wise idea to roll back home a few of those guys in Washington who sit at roller top desks trying to further figure out ways and means to confuse the people. Dr. Goebels may have had some thing when he said that the German government would not worry about America getting into the war and if she did there would be such a state of confusion within America that they would fight against themselves. Let's don't be silly, and we refer to the would-be wise guys in Washington.

NOTICE FARMERS: There is a possibility that war prisoners for farm labor may be obtained for this area if enough work days are available. These persons can not be worked in groups of less than 15, under guards furnished by the army. Farmers using this labor furnish transportation, from prison camp to fields and return, and pay to the army approximately \$1.50 per day per prisoner. The army feeds the prisoners. Labor must be within a radius of about 30 miles from local camp. All farmers in this vicinity who will need this kind of labor, please contact this scribe who is president of McCaulley Victory Council and I shall be glad to assist in any way possible and as soon as necessary information is obtained, steps will be taken to see if this prison labor is available. Please state how many employees you will need and for how long and what kind of work that you have for them.

Rep. Clare Booth Luce stirred the House to debate the other day when she declared that President Roosevelt was once the world's outstanding isolationist. We have a notion that Mrs. Clare Booth Luce is wanting publicity. Quite a few of the kind sun bathing on the banks of the Potomac when they should be co-operating in the war effort.

The reasons for less local news this week and more Pot-Shots is: we happened to be in Fort Worth and Dallas most all the week and don't know what's going on in the old home town.

The weather is somewhat warmer in Dallas to our notion, than in McCaulley and the folks, more numerous, but we find that the folks in the city have about the same things in common with West Texans, but there is one good thing about being from Fisher County when it comes to traffic rules, the cops take it for granted that we don't know any better.

We just can't keep it any longer: One day Levi McCollum rushed into a Dallas barber on Sunday morning for a shave, and was taxed a dollar for same. He is still recovering.

COMMENT No. 2. After this war, there should be a great change in the immigration laws of the United States. Every Jap, whether he was born here or elsewhere should be deported. They are just not our kind of people and never will be. There will be enough work for all Americans if we deport the undesirables. The white race in America does not claim to be a super race, yet the Pilgrim fathers would likely turn over in their graves at the thoughts of our people permitting Japs to live, work and undermining everything that we hold dear. Yes, this country is not big enough for the white race and the equine-eyed Japs and the men who represent the people in Washington should have backbone enough to pass laws that would forever prohibit another Jap to set foot on American soil. Mark this down: Just as soon as this war is over, you are going to get the appeasers in Washington get busy. You will even hear how bad that the Pap race has been mistreated and some will want the people to forgive and forget the sneak attack on Pearl Harbor. Before Admiral Perry visited Japan, they were isolated from the rest of the world. Well, we would have been a million times better off if the Japs were still isolated. Personally, we never expect to support any man for any office in the future who has one ounce of sympathy for the Jap race. That's a broad statement, but a fact, and there are millions of mothers and fathers of American boys who will say Amen. World trade will carry on without the assistance of a low class of sneaking Japs. If we can

get along without apes, baboons and monkeys, then we can get along without the Japs. The son of man even hated evil, and we consider the Jap race evil. There is room enough in this world for every race to have a country and the sooner all races are given a country in which to live with their own race, the sooner we will be rid of stinking race riots. And if a certain race wishes to isolate themselves from the rest of the world, that's their business. Our business should be, to make America for Americans. If you agree, let us hear from you.
